

Home Based Primary Care

HBPC

Pssst... We make House Calls!

Do you or someone you know have difficulty coming to the OKC VA medical center to see your doctor?

Does this Veteran live within a 35 mile radius of the OKC VA medical center?

HBPC provides health care in the Veteran's home through a physician-supervised interdisciplinary team of nurse practitioners, physician assistants, pharmacists, dieticians, occupational therapists, social workers, nurses and psychologists. HBPC services veterans with complex chronic disabling diseases.

Contact our HBPC office at 405-456-2612 (to reach Kay McIntyre HBPC coordinator) for evaluation and to see if we can help make your life a little bit easier.
